

ELECTRICIAN

Electrical Apprenticeships:
www.migas.com.au | 1300 464 427

Training Snapshot

4 year apprenticeship

Completion of Vocational qualification at Certificate level

Specialisations available in electrical fields

Trade support loans and government incentives available for eligible applicants

Career Outcomes

Qualified electricians are sought after in a range of industries operating in manufacturing, construction and mechanical trades.

Career options can include working at factories that make or repair electrical machinery and equipment, dockyards, government departments, and as an electrical contractor supplying, installing and servicing electrical equipment in residential and commercial environments.

Promotion to supervisory, team leader and management roles is possible.

With experience and further study, electricians may upgrade their qualification to specialise as a technician, technologist or engineer.
